

DATA SHEET

Polycom® VoiceStation® 500

Crystal clear conferencing for smaller rooms and desktops

Bluetooth®-enabled voice conferencing designed for offices and small meeting spaces

The Polycom® VoiceStation® 500 is a small Bluetooth-enabled conference phone ideally suited for desktops, offices, and other small rooms. With a microphone range of up to seven feet, the VoiceStation 500 is perfect for small conferences with three to four participants. Plus its compact industrial design fits well on a desk or small table, making it a great solution for offices. With the VoiceStation 500, you can enjoy Polycom's legendary voice quality at an affordable price.

Use your Bluetooth-enabled mobile phone to connect wirelessly to the VoiceStation 500 for hands-free voice conferencing. It can also connect to a Bluetooth-enabled computer for high-quality hands-free conferencing over Internet calling services such as Skype. If your mobile phone or computer is not Bluetooth-enabled, simply use the integrated 2.5mm applications port for wired connections.

The VoiceStation 500 features three sensitive microphones that offer 360-degree room coverage. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications with no distractions.

Convenient controls for Bluetooth, volume adjustment, mute, redial, flash and hold are located on an intuitive, easy-to-use keypad. When dialing over regular phone lines, a handset phone can be plugged in for private calls, or simply switch back to the VoiceStation 500 for hands-free conversations.

Benefits

- **Bluetooth connectivity**—High-quality hands-free calling through your mobile phone or the Internet
- **2.5mm applications port**—Plug into a wired connection for mobile phone and Internet calling when Bluetooth is not available
- **More productive calls**—Patented Polycom Acoustic Clarity Technology allows simultaneous, natural, free-flowing conversation
- **360-degree room coverage**—A powerful, digitally-tuned custom speaker and three sensitive microphones provide uniform coverage from up to 7 feet away
- **Hands-Free Calls**—A great hands-free conferencing solution for home offices and small businesses
- **Resists interference from mobile phones**—Clearer calls with no distracting noise from wireless devices
- **Easy to use and install**—Connects into any analog phone jack
- **Secondary phone options**—Plug in a fax machine or a handset for private calls
